

Nitish Kumar

Data Analyst with AI

☎ +91-8877066269 | ✉ nitishsingh2148@gmail.com |  [LinkedIn](#) |  [GitHub](#)

Summary

Data Analyst with a strong foundation in SQL, Python, Excel, and Power BI. Skilled in cleaning, analyzing, and visualizing data to generate insights and support data-driven decision-making. Interested in collaborating on meaningful analytical work in fast-paced environments.

Skills

Programming & Querying: Python, SQL

Data Analysis: Pandas, NumPy, Advanced MS Excel

Data Visualization: Power BI, Tableau, Matplotlib, Seaborn

Database Management: MySQL, SQL Server

Analytics: Data Cleaning, Data Preprocessing, EDA, Statistical Analysis

BI & Reporting: Dashboard Development, KPI Reporting, Data Insights

Tools & Platforms: Jupyter Notebook, Git, GitHub Experience

EX-Frontend Developer Intern

NOVEMBER 2026 – DECEMBER 2026

Codec Technologies (Remote)

Tools Used: HTML, CSS, Java Script, Git, GitHub

- Developed **responsive and user-friendly web interfaces** using HTML, CSS, and JavaScript, ensuring cross-device compatibility.
- Built **interactive UI components and responsive layouts** to enhance usability and overall user experience.
- Identified and resolved **frontend bugs and layout issues**, improving website performance, functionality, and responsiveness.
- Applied **modern frontend development practices** to create clean, structured, and maintainable web pages.
- Used **Git and GitHub** for version control, code management, and collaborative project development.

Projects

Customer Churn Analysis | Python

JANUARY 2026 – FEBRUARY 2026

- **Analyzed behavior of 7,043 telecom customers** to identify churn patterns based on tenure, contract type, and monthly charges.
- Engineered new features including contract type buckets and tenure bands to improve segmentation and insights.
- Generated 11 visualizations (histograms, box plots, heatmaps) to highlight churn-prone segments.
- Revealed that 38% of churned users were on monthly contracts with less than 3-month tenure—suggested early engagement strategies.

Mobile Sales Dashboard | Power BI, DAX

JUNY 2026 - AUGUST 2026

- Built an interactive Power BI dashboard to analyze mobile sales by brand, model, city, and month.
- Created DAX measures and KPIs to track sales, transactions, quantity, and performance.
- Used slicers, charts, maps, and tables for dynamic sales analysis.
- Identified top-performing products, sales trends, ratings, and payment preferences.

Sales Dashboard for Regional Performance | SQL, Power BI

MARCH 2026 – APRILE 2026

- Queried and joined 3 sales-related tables covering over 25,000 rows across 12 months and 5 regions using optimized SQL joins to create consistent, analysis-ready datasets.
- Built 10 dynamic measures and KPIs in Power BI to track regional sales, return trends, and product performance.
- Designed multipage dashboards with slicers and filters, helping stakeholders drill down by region, product category, and time.
- Detected 14% sales drop post-festival in the South region. Later, the insight was used for a marketing recovery plan.

Certifications

- **Google Analytics Certification – 2026** | Google
- **Top 5% in SQL Hacker Rank Challenge – 2026** | Ranked Top 150 / 3,000+ participants
- **Physics Wallah: Data Analytics with AI – 2026** | Certificate provided by Microsoft
- **Python – 30 Days Micro Course – 2026** | Skill Course
- **SQL – 30 Days Micro Course – 2026** | Skill Course
- **Top 10% in Excel Skill Course – 2026**

Education

B.C.A (Bachelor Of Computer Applications)

Acharya Institute Of Graduate Studies

Graduated: 2026

CGPA: 8.67 / 10
