EDUCATION

Bachelor of Computer Application	2023-2026	Acharya Institute of Graduate Studies, Bengaluru	86%
BSEB (Class XII)	2020	Tapeshwar Singh College, Patna	60%
BSEB (Class X)	2018	Lokmanya High School, Patna	59%

EXPERIENCE

EX-Frontend Developer Intern, Codec Technologies ,Remote

Nov 2026 – Dec 2026

- Developed responsive web interfaces using **3 core technologies—HTML, CSS, and JavaScript**, ensuring consistent usability across device types.
- Built interactive UI components and responsive layouts using **3 frontend technologies**, supporting improved usability and cross-device functionality.
- Identified and resolved frontend bugs and layout issues across web interfaces, improving **3 key areas: functionality, responsiveness, and performance**.

Data Analytics Trainee, Physics Wallah , Remote

Jan 2026 – Jul 2026

- Completed structured training in **Data Analytics**, focusing on data analysis, visualization, and business reporting.
- Learned **Excel and SQL** for data cleaning, data manipulation, querying, and exploratory data analysis.
- Developed practical knowledge of **Power BI**, including Power Query, data modeling, DAX, dashboards, and interactive visualization

ACADEMIC PROJECTS

Customer Churn Analysis | Python

- Analyzed 7,043 telecom customer records using Python, engineered customer segments, and created **11 visualizations to identify** churn patterns and high-risk groups.
- Identified that 38% of churned customers had monthly contracts and less than 3 months of tenure, providing actionable insights for early customer-engagement strategies.

Mobile Sales Dashboard | Power BI, DAX

- Developed an interactive Power BI dashboard with DAX measures and KPIs to analyze sales, transactions, quantity, and product performance across brand, model, city, and month.
- Analyzed product performance, sales trends, customer ratings, and payment preferences using dynamic visualizations to generate actionable insights for business decision-making.

Sales Dashboard for Regional Performance | SQL, Power BI

- Integrated and analyzed **3 sales tables containing 25,000+ rows** across **12 months and 5 regions** using SQL, creating **10 dynamic Power BI KPIs** for sales, returns, and product performance.
- Built a **multipage Power BI dashboard** with interactive filters and identified a **14% post-festival sales decline** in the South region, supporting a targeted marketing recovery plan.

POSITIONS OF RESPONSIBILITY

- Core Team Member (Debsoc): The Debating Society of Acharya):** Planned and organized events for over **1,000** participants
- Core Team Member (NSS):** Successfully organized an event for **800+** attendees, overseeing end-to-end logistics
- Volunteer (Rotaract Club):** Exchanged ideas with community leaders, developing leadership and professional skills

EXTRA-CURRICULAR ACTIVITIES AND ACHIEVEMENTS

- Data Analytics with AI – 2026** | Physics Wallah | Certificate provided by Microsoft; developed practical knowledge of data analytics
- SQL – 30 Days Micro Course – 2026** | Skill Course | Strengthened SQL querying and database analysis fundamentals.
- Python – 30 Days Micro Course – 2026** | Skill Course | Strengthened Python fundamentals for data analysis.
- Excel – 30 Days Micro Course – 2026** | Skill Course | Strengthened Excel fundamentals for data analysis and reporting.

Technical Skills: Excel, SQL, PowerPoint, Sheet, Tableau, Generative AI Tools, Figma, Product Prototyping, User Flow Design

Product & Business Skills: Requirements Gathering, Business Analysis, Problem Solving, Feature Prioritization, Product Research, User Experience Flows, Product Documentation, Bug Tracking, Functional Analysis

Soft Skills: Stakeholder Management, Communication, Collaboration, Leadership
